

# Sahil Rathod

Aspiring Data Scientist | Operations & Business Professional

sahilrathod0508@gmail.com | +91 8050820899 | linkedin.com/in/sahil-rathod-7570ba225 | Bengaluru, India

---

## SUMMARY

Computer Science graduate with 2+ years of combined experience in data science, restaurant operations, and academic mentoring. Skilled at building ML pipelines and delivering analytical insights, while equally capable in business operations — vendor coordination, customer engagement, and brand execution. Strong communicator who bridges technical work and practical business outcomes. Eager to contribute to forward-thinking teams with creativity, integrity, and a growth mindset.

---

## SKILLS

**Programming Languages:** Python, Java, JavaScript, C

**Data Science & ML:** NumPy, Pandas, Scikit-learn, TensorFlow, Keras, XGBoost, SHAP, SMOTE

**Data Visualisation:** Power BI, Tableau, Matplotlib, Seaborn, Streamlit

**Databases:** MySQL, MongoDB, CRUD Operations, Database Design

**Web Development:** HTML5, CSS3, React.js, Node.js, Express.js, REST APIs

**UI/UX Design:** Figma, Prototyping, Wireframing, User Research, Usability Testing

**Operations & Business:** Vendor Coordination, Inventory Management, Customer Engagement, Branding, Marketing, Staff Scheduling, P&L; Tracking

**Soft Skills:** Communication, Stakeholder Management, Problem Solving, Team Collaboration, Written Articulation

---

## EDUCATION

**BLDEA's Dr. P. G. Halakatti College of Engineering & Technology, Vijayapura** 2020 – 2024

Bachelor of Engineering (B.E.) in Computer Science – VTU, Belagavi | CGPA: 7.4 / 10.0

---

## INTERNSHIPS & EXPERIENCE

**Data Science Consultant, Rubixe – AI Solution – Bengaluru, India**

Jan 2025 – Jul 2025

*Internship*

- Built end-to-end ML pipelines covering data ingestion, preprocessing, feature engineering, model training, and evaluation for real-world client datasets.
- Achieved F1-Score of 0.82 on Blood Donation Prediction — evaluated 7 models using SMOTE, cross-validation, and GridSearchCV hyperparameter tuning.
- Developed Telecom Churn Prediction using live MySQL data, XGBoost, and SHAP for model interpretability, deployed as a Streamlit dashboard.
- Built Teaching Assistant Performance Prediction model (89%+ accuracy) with Random Forest, Gradient Boosting, and 5-fold cross-validation.
- Created dashboards and reports in Tableau, Power BI, Seaborn, and Matplotlib to communicate insights to non-technical stakeholders.
- Collaborated in teams of 4 with weekly structured progress reviews and direct reporting to project leads.

**Operations & Business Management Associate, Slice and Spiral – Vijayapura, India** Nov 2025 – Mar 2026

*Family Venture (Restaurant listed on Zomato)*

- Assisted in the end-to-end setup and daily operations of a newly licensed restaurant, gaining hands-on exposure to full-lifecycle food-service business management.
- Coordinated with vendors for procurement and inventory control, negotiating pricing and delivery terms to optimise cost efficiency.
- Led customer engagement on the floor and via Zomato, resolving complaints and implementing service improvements that built a positive online reputation.
- Planned and executed local marketing and branding initiatives including social media, in-store promotions, and menu design to drive footfall.
- Managed staff scheduling, shift planning, and daily financial records including revenue tracking and petty cash reconciliation.
- Handled licensing, compliance documentation, and government registration processes during the restaurant's launch phase.

**Subject Matter Expert, Chegg India – Remote**

Jun 2023 – Nov 2023

*Part-time | Physics, Chemistry, Mathematics & Computer Science*

- Resolved academic queries from students across four subjects on one of India's largest ed-tech platforms, maintaining a 95%+ quality and accuracy score.
- Delivered clear, structured explanations tailored to varied comprehension levels, improving student problem-solving confidence and academic outcomes.
- Managed high query volumes with accuracy and timeliness, building strong written communication and technical articulation skills under pressure.

**Full Stack Web Developer, RoborosX Omni Tech – Bengaluru, India**

May 2023 – Sep 2023

*Internship*

- Built responsive web applications using HTML5, CSS3, JavaScript, and React.js with seamless cross-device UI/UX.
- Developed full-stack solutions integrating frontend and backend APIs; improved website performance by minimising load times and optimising resource usage.
- Participated in regular sprint reviews and progress reporting directly to project leads.

**UI/UX Designer, Varcons Technology – Bengaluru, India**

Feb 2023 – Mar 2023

*Internship*

- Designed wireframes, prototypes, and high-fidelity UI screens in Figma for web and mobile apps, grounded in user-centric design principles.
- Conducted user research and usability testing to drive iterative improvements in satisfaction and engagement.

**PROJECTS**

---

**Grape Leaf Disease Detection – Final Year Project (Best Project of the Year Award 2024, 2024 CS Branch)**

*Tech: TensorFlow, Keras, OpenCV, CNN, Transfer Learning, Data Augmentation*

- Custom CNN and transfer learning system achieving 92.5%+ accuracy on a self-curated 1,500+ image dataset with full preprocessing and augmentation pipeline.

**Blood Donation Prediction – Rubixe**

Jan – Jul 2025

*Tech: Scikit-learn, Pandas, SMOTE, GridSearchCV, Matplotlib, Seaborn*

- Evaluated 7 classification models on an imbalanced dataset; achieved top F1-Score of 0.82 via cross-validation, hyperparameter tuning, and feature importance analysis.

**Telecom Churn Prediction – Rubixe**

Jan – Jul 2025

*Tech: SQL, XGBoost, SHAP, Streamlit, Scikit-learn, Feature Engineering*

- End-to-end churn pipeline from live MySQL data with SMOTE balancing, SHAP explainability, and an interactive Streamlit dashboard for business stakeholders.

**Teaching Assistant Performance Prediction – Rubixe**

Jan – Jul 2025

*Tech: Scikit-learn, Pandas, Seaborn, RandomForest, GradientBoosting, SVM*

- 89%+ accuracy ML pipeline classifying TA performance into 3 categories; trained and compared 6 models using 5-fold cross-validation and GridSearchCV.

**Dynamic Blogging Platform – Varcons Technology**

Feb – Mar 2023

*Tech: Figma, React.js, Node.js, MongoDB, JWT, REST APIs*

- Full-stack blogging platform from Figma prototype to production with JWT authentication, MongoDB content storage, and fully responsive design.

**CERTIFICATIONS**

---

- Certified Data Scientist – NASSCOM FutureSkills Prime, 2025
- Certified Data Scientist – IABAC (International Association of Business Analytics Certifications), 2025
- Full Stack Java Developer – ExcelR, 2024
- Full Stack Web Developer – Udemy, 2024
- Python Course – Besant Technology, 2023

**ACHIEVEMENTS & ACTIVITIES**

---

- Best Project of the Year 2024 – CS Branch, BLDEA's College of Engineering (Grape Leaf Disease Detection, 92.5%+ accuracy).
- Maintained 95%+ quality & accuracy score as Subject Matter Expert on Chegg India across four academic disciplines.
- Football Championship Winner & Cricket Runner-Up – College-level inter-department sports.
- Esports & Cultural Club Member – Active participant in college esports team and cultural events.
- Community Service – Engaged in college-organised community outreach and social initiatives.
